

Project Name: S&C Plain Line South Alliance

Client: Colas Rail

Approximate Value: £2,500,000 annually

Duration: Framework since Dec 2014 ongoing

This case study explores into the collaborative engagement between ASH Construction Group to provide labor services to Colas Rail, a prominent player in the rail infrastructure sector. Network Rail will renew more than 7,000km of track as part of a £25bn investment programme that has been awarded to Colas Rail and the alliance. By integrating ASH Construction's skilled labor force into Colas Rail's teams, the aim was to strengthen project workforces and expedite project schedules. The wealth of experience, the collaboration sought to streamline labor-intensive aspects within rail infrastructure projects, ultimately enhancing the overall project efficiency.

Description of Services includes:- Track renewals, Track drainage, coper re-alignments, Labour supply , COSS, Pway Gangs, Engineers, and Protection Staff.

The location of the works are in Kent, Sussex Anglia and London.

Winner of labour resource championship 2017/2018
