

**Project Name: Network Rail Southern Region Works Delivery/Maintenance**  
**Client: Keltbray Rail**

**Duration: Labour Framework since Dec 2021 - Ongoing**

This case study explores the impactful partnership between ASH Construction and Keltbray, established in 2020. The collaboration has enabled the seamless deployment of specialised P-Way gangs, exemplifying the potential of skilled workers working together to elevate rail infrastructure projects. Other works that have been are providing white-collar staff like hand back engineers and Site Supervisors on multiple sites.

Description of Services includes:- Labour supply, COSS and PWAY Gangs, Handback engineers, Site Managers and Site Supervisors.

Locations of works of labor supply are in Kent, London, and Surrey.
