

Project Name: Mountfield Tunnel
Client: Rhomberg Sersa Rail Group (UK)

Duration: Labour contract since 2022 - Ongoing

We are excited to showcase the collaborative partnership between ASH Construction and Rhomberg Sersa Rail Group UK. ASH Construction has seamlessly delivered its labor expertise for a series of significant projects, with the Mountfield Tunnel project standing out as a prime example. This project serves as a compelling testament to ASH Construction's integral role in elevating the standards of rail infrastructure. The project consisted of a new track slab, reinforced with four tonnes of metal bars to be installed plus 750 meters of new, specially coated track specifically designed to withstand tunnel environments.

Description of Services includes:- Slab Track renewals, Labour supply, COSS and Pway/Civil Gangs, and white collar staff.

Locations of works of labour supply are in Kent and London.
